

MACLEOD SCHOOL COMMENCEMENT EXERCISES ELICITED GOOD ATTENDANCE OF PARENTS AND FRIENDS—INTERESTING PROGRAMME—A HIGHLY SUCCESSFUL AFFAIR

The most successful Commencement Exercises of the Macleod Public and High Schools ever held took place on Wednesday afternoon in the new skating rink, recently built. In previous years these exercises have been held in the Assembly Hall of the school which was always far too small to accommodate comfortably the pupils, without the parents who had to be content to stand in the corridor. In the rink Wednesday a platform was erected at the entrance end and the children were seated in two long rows in front of the platform, the parents occupied the side gallery seats and the balcony, there being over 200 parents present.

The children marched in splendid style from the school to the rink, making a pretty sight, as most of them carried flags. The procession was led by the Macleod Band, playing appropriate marching music. Dr. O. F. Fanet, chairman of the board, presided, and he was accompanied on the platform by Mayor J. Swinarton, J. W. McDonald, K. C., Mrs. J. W. McDonald, Charles C. Bremner, School Inspector, D. J. Grier, W. A. Davy, and Principal McKay. Miss Jean Hilliard presided at the piano, playing the accompaniments to the various choruses.

The programme opened by singing "O Canada." The chairman then called on Mayor Swinarton for his address of welcome to the municipal rink. The Mayor, in opening said that this was the proudest moment of his life, first because of the privilege of standing before a such a crowd of bright, shining young faces and second to have the honor as Mayor of extending a hearty welcome to the finest skating rink in Alberta. The Mayor stated that the rink had been built principally for the recreation of the young people of Macleod, and the Council had decided that the family season tickets would be set at a price

so that every family in Macleod will be able to take advantage of the splendid facilities of the rink. The remarks of the Mayor were received with great applause, especially by the pupils.

Dr. Fanet in giving his chairman's address gave a review of the work done in the public and high schools during the past year, stating that the Macleod schools were now attaining a very high standard of efficiency, scarcely equalled by any other school in the province. The doctor gave a comparison of the enrolment this year with last year, stating that the rooms were now year crowded to capacity, and that he expected that they would soon require to re-open the old 2-room High School again. The Doctor urged the mothers present to visit the school at any time and get acquainted with the teachers and see for themselves the work they are doing for their children. He closed his address by giving the results of the recent departmental exams in the high school, which showed that grade IX made a pass of 89%, grade X 59%, and grades XI and XII combined 89%. He combined these two grades as a number of pupils took subjects in both grades. This record he believed was the best the school had ever made.

The pupils then gave a beautiful rendering of the Hymn "Unto the Hills Around Do I Lift Up My Longing Eyes."

J. W. McDonald, K. C., was the next speaker, and referred to the fact that this was the tenth year that these exercises have been held, and that he had been present and taken part every year. Ten years ago he said the little ones who came in are now occupying the back seats in the higher grades, so he said they come in and they go out. Last year they gave

grade I a motto for the year and he asked how many remembered it, quite a number did, and also repeated it. Being a member of the Board, Mr. McDonald spoke of the efforts of the Board and the staff of teachers to make the schools second to none in the Province. Mr. McDonald told the pupils that two special prizes would be offered next year (one an autograph copy of a new book to be published by Nellie McClung this year) for the best short story written by a pupil in grades VII to XII, and another (a book of Poems by a standard author) for the best short poem by any pupil in the school. He hoped that a great many would take part in these competitions.

Inspector Bremner said he was delighted to be present, as this was the first time that he had been able to be present during the past five years since he came to Macleod. He first spoke a few words to the pupils, impressing upon them that these commencement exercises should stimulate them to do better work in the school. Mr. Bremner then spoke to the parents present, and said that the responsibility for the success of the pupils rested very largely with the parents, and the pupils' home environment. He said that the science of hygiene was now well known, speaking principally of mental hygiene or hygiene of the mind, referring specially to

present conditions among children, such as neurotics, delinquents, and children beyond control. He blamed many of those to home conditions, and that material changes would have to be made—19th century methods were not applicable to this 20th century. He spoke of the great changes that had been made in the attitude towards children of these classes, that science had demonstrated that failures or these ailments were not hereditary, but that the home was responsible; that children do not inherit immoral tendencies, or criminal tendencies, that they are born with no habits, but that the parents are responsible for the development of such evils as lying, stealing and crime, that these by investigations have in most cases been traced to the home. Children who get into trouble at school are generally out of adjustment at home. Mr. Bremner in closing urged the parents to face the facts and study the children with a view to understanding them. He said, first understand yourselves, and form proper physical habits and keep yourselves under proper emotional control.

Mrs. J. W. McDonald, who is the principal mover in providing the prizes for the children had a few words to say to them stating that when she came west she made up her mind that she would try and do something for the schools, and

she urged the children that when they grew up to try and do all they could to help others to succeed.

The Canadian Boat Song was sung by the pupils.

Dr. Fanet then handing out the prizes stated that 18 pupils in the High School had won honor certificates, more honors than ever had been won before in Macleod.

Dr. Fanet then proposed a vote of thanks to Mrs. Knight for so ably preparing the children for the musical part of the program, to the teachers for their share of the preparation, and to the ladies for providing ice cream for the pupils and providing the prizes.

Before closing the High School students sang a chorus in fine style, very appropriate for the occasion. The gathering was closed by singing God Save the King.

The following is the list of prizes presented by the chairman, assisted by Mrs. Dowsett, Vice-Principal.

Grade I.—Philip Hodnett 1st, Judy Couillard 2nd, Margaret Butler 3rd. Grade II.—Stuart Bruce 1st, Nadine Hamilton 2nd, Neva Jackson 3rd. Grade III.—Glenella Russell 1st, Mabel Jordan 2nd, Marion Hodnett and Billy Kostick (equal) 3rd. Grade IV.—Moira Law 1st, Billy McCracken 2nd, Betty Knight 3rd. Grade V.—Barbara Toogood 1st, Margaret Moreau 2nd, Colin McLeod 3rd. Grade VI.—Jack McCracken 1st, Annie Kostick 2nd, Wilton Jones 3rd. Grade VII.—Wilhelmina Lantinga 1st, Annie Ferguson 2nd, Alice Dillingham 3rd. Grade VIII.—Eileen Freed 1st, Dick Wyld 2nd, Wilma Freed 3rd. Grade IX.—Dorothy Pinder 1st, Dorothy Hilliard 2nd, Beryl Underwood 3rd. Grade X.—Margaret Hillier 1st, Lorna Ferguson 2nd, Grade XI.—Donald Sutherland 1st, Jean Day 2nd, Grade XII.—David Grier 1st, Sabo Lantinga 2nd. Special Prizes donated by the teachers: Grade II.—Improvement in writing, Marie Stewart; given by Mrs. Grier. Grade III.—Improvement in writing, Henry Rhines, by Mrs. Grady. Grade IV.—For general

eral improvement, Lois Christensen, by Miss Martin. Grade V.—Highest marks in geography, Barbara Toogood, for improvement in composition, Nellie Taylor, both by Miss Griffen. Grade VI.—For accuracy in Arithmetic, Douglas Baker, by Miss Taber. Grade VII.—For perfect attendance, Wilma Freed, Eileen Freed, Dick Wyld, Jane Bailey, May McGregor and Laura Hamilton, by Mrs. Dowsett. Grade IX.—Highest in French, Dorothy Pinder, by Miss Stewart. Grade X.—Highest in French, Margaret Hillier, by Miss Stewart. Grade XI.—Highest in Literature, Donald Sutherland, by Miss Telford. Grade XII.—Highest in Latin, David Grier, by Miss Telford.

The following are the honor students in the High School. Grade IX.—Dorothy Hilliard, Dorothy Pinder, Beryl Underwood, Gladys Bota, Anna Fanet, Dick Canning, May Hoodless, Eileen Bowden, Charles Freeman, Sidney Christensen, Margaret Vise, Florence Lantinga, Lorna Ferguson, Grade XI.—Donald Sutherland, Jean Day, Charles Knight. Grade XII.—David Grier.

Happy day! Amateurs all over the country are selling stocks short, expecting them to keep on falling.

"FLIGHT" COMBINES ADVENTURE AND LOVE—LATEST AVIATION DRAMA IS THE TELLING FILM FARE FOR ALL—THURS.—FRI.—SAT.—

"Flight," the Columbia all-talking aviation special is a mighty drama of adventure in the sky featuring the most sensational air feats ever photographed. A capable cast including Jack Holt and Ralph Graves, one of the screen's favorite teams, Lila Lee, Harold Goodwin, Jimmy De La Cruz and Alan Roscoe handle their roles with skill and artistry.

Loops, tail-spins and Immelman turns provide thrills galore for aviation enthusiasts. Fundamentally an aerial production, a beautiful and poignant love story is told against the background of breath-taking manoeuvres among the clouds.

"Lefty" Phelps, enacted by Ralph Graves, driven by shame to leave college because of a bonehead reverse football play, joins the marine aviation service. He wins the sympathy and friendship of "Panama" Williams, the hardboiled Marine sergeant (Jack Holt). Their friendship is disrupted temporarily when they both fall in love with the same girl. This situation leads to an intensely dramatic conclusion.

Battle scenes between the Nicaraguan insurgents and the American marines are tremendously realistic and thrilling. Colorful sequences are laid in the exotic atmosphere of Spanish singers and dancers hold forth.

Here is one of the rare achievements in motion pictures—a good story, excellent acting, fine direction and tense and awe-inspiring situations. Good entertainment. Frank R. Capra directed.

"EVANGELINE" RANKS HIGH AMONG BIG FILMS OF YEAR—MON.—TUES.—

Motion pictures may come and go but it is doubtful if a local screen will ever reflect a more impressive, wholesome and colorful romantic drama.

When Dolores Del Rio made "Ramona" for United Artists, even her most loyal admirers felt that she had reached the peak of her brilliant career. Her current play "Evangeline" which, like "Ramona," has been written by Finis Fox and produced and directed by Edwin Carewe, makes the previous Del Rio vehicles fade into mere nothingness in basic comparison.

"Evangeline" is entertainment for every member of the household and for every household. Moreover it is good for the most critical doubting Thomas and the school child as well.

As a poem "Evangeline" ranks among the world classics of literature; as a photoplay, thanks to an obviously sympathetic and pretentious production, it is equally vital.

There is not a wasted moment in the film. A powerful story, a stirring, appealing romance are developed steadily and surely and every scene is an artistic triumph, both from the historic angle, and the photographic. Seldom has more beautiful picture been offered and similarly seldom has a more compelling, all round screen performance been offered by star and supporting cast. "Evangeline" is more than just a motion picture. It is a tonic that restores one's faith in art, in good entertainment and faithful story telling and its sponsors deserve the generally fine praise heaped upon them wherever "Evangeline" has been shown.

THE SALVATION ARMY

Meetings as follows: Saturday—Prayer Meeting 8:30 p.m. Sunday—11 a.m. Holiness; 3 p.m.—Sunday School and Adult Bible Class; 7:30 p.m.—Salvation Meeting. Officers in charge Capt. and Mrs. Weir.

PROGRAMME OF MACLEOD AND CLARESHOLM WOMEN'S INSTITUTE CONSTITUENCY CONFERENCE

The ladies of the Macleod and Stand Off Women's Institutes are looking forward to an interesting and busy day on Tuesday, September 30th, when the Macleod and Clareholm Constituency Conference will be held in the Town Hall, Macleod.

From the opening at 10 o'clock in the morning till the closing every hour will be packed full of interesting and instructive reports and business relative to the work of this great institution. The following programme will give some idea of the comprehensive work undertaken by the Institutes:

Programme Opening, "O Canada." Invocation and Creed. Minutes of last Conference and Financial Report. Report of Macleod Institute. Report on Legislation—Mrs. E. Perry, Macleod. Report of Star Line Girl's Club, Miss E. Laing, Clareholm. Special Music. Report of Stand Off Institute. Report on Home Economics. Mrs. W. J. Ryan, Macleod. Report of Blue Bird Girl's Club, Miss Matson, Clareholm. Report on Canadian and National Events—Mrs. Skelding, Stand Off. Community Singing. Convenor's Report, Mrs. E. Greenwood, Macleod. Report on Canadian Products. Miss Eda Johnson, Stand Off. Report of Star Line Institute. Election of resolution committee. Adjournment.

Afternoon Session—Address of Welcome by Mayor J. Swinarton, Macleod. Greetings from Macleod and Stand Off Institutes. Reply, Mrs. D. Mulholland, Clareholm. Report of Willow Creek Institute. Special Music. Report on Immigration. Mrs. Hart, Clareholm. Report on Agriculture. Mrs. O. Mosley, Clareholm. Report on Education and Better Schools. Mrs. G. Rowe, Stand Off. Address, Mrs. F. C. Alcock, District Director. Community Singing. Report on Child Welfare and Public Health. Mrs. Strang, Clareholm. Report of Granum Institute. Short Talk on Handicrafts, Mrs. J. W. McDonald, Macleod. Special Music. Address, Mrs. Horace Seymour, Town Planning Commissioner, Edmonton. Election of Officers. Discussion. Resolutions. God Save the King.

A banquet will be given by the ladies of the Macleod and Stand Off Institutes for all delegates, members and friends.

TENTH FORTNIGHTLY CROP REPORT—ISSUED BY THE DEPARTMENT OF AGRICULTURE, GOVERNMENT OF ALBERTA, EDMONTON, SEPTEMBER 20th, 1930

Threshing is again under way following a period of unsettled weather over the greater part of the Province, which delayed operations to some extent. Southern Districts report threshing 90% completed with the exception of irrigated areas where 50% remains to be done. In Central and Northern parts threshing delays have been of frequent occurrence due to rain and the amount threshed varies from 5% to 25%.

Cutting of grain for threshing is completed. In some areas cutting of Green Feed is still in progress. This is particularly true of the east central part of the Province where the grain has been destroyed by high winds and drought. The absence of frost until late in the season has been a factor in greatly increasing yields of Grain and Feed in this area over early expectations.

Frost was general on the night of September 18th, but very little damage reported, due to the grain being in state of maturity of the crop. Threshers' returns indicate that the quality of wheat is high. The yield, according to these returns will be satisfactory and will be higher than was anticipated.

Harvest operations commenced in the Sugar Beet Area on September 17th. A good average yield with a high sugar content is reported. Due to late rains, pasture and feed conditions are generally satisfactory and Live Stock in good condition.

STRATEGY

The young husband preferred to stay home, but to please his wife he engaged board at a country hotel for the summer. Nearly every night for dinner the husband hovered around the parlor and managed to occupy the piano stool instead of a chair.

"I don't understand, dear," said his wife one evening, "why you always sit at the piano. You know you can't play a note."

"Ah!" replied the husband, "neither can anyone else, my love, while I am here!"—Christian Science Monitor.

Tourist: "Is there a drug-store in town?" Native: "No, but stop in a while and I'll have my wife get ye up a snack."—Brooklyn Eagle.

ABS SWINARTON'S NEW MINIATURE GOLF COURSE NOW COMPLETE—ED AND WILL LIKELY OPEN FOR BUSINESS THIS WEEK

This week, weather permitting will see the opening of another amusement attraction for the town of Macleod, when Albert Swinarton, will open his new Miniature Golf Course. Situated on the south side on the west end of 24th Street, between the Sheffield garage and the Couillard & Lush garage, the course covers a space of 99x132 feet, and is up-to-date in every respect. It is claimed that this new Course, being on a larger scale than the average, will be the finest Course in Southern Alberta, south of Calgary. It will be brilliantly lighted with a large number of high power electric lamps, making the Course as light as day, which will allow play to be carried on every evening to a late hour.

Albert Swinarton is to be congratulated on his enterprise in providing this latest form of amusement for his native town, putting it on a par with the larger cities, where the Miniature Golf craze is the latest fad.

ENTERPRISE WINS 4th RACE AND CUP IN EASY FASHION

U. S. S. Kane, off America's Cup Course, Sept. 18.—(By radio to the Associated Press).—The United States sloo Enterprise today completed a successful defence of the historic America's cup when she won the fourth straight race and the international series, four victories to none.

Now all we need is a parlor rug with a few traps and hazards for rainy-day putting.

Obliging Bobby

Folks visiting Bobby's Mother remark on his happy, sunny disposition. So different from the Bobby that used to be. The explanation is simple. Formerly he didn't seem to digest his milk; the milk didn't agree with him. Now he gets Nestlé's Evaporated Milk which he does digest—readily. Why, he's a different boy!

And here's the Reason! Nestlé's Evaporated Milk is just the best of fresh cow's milk with part of the water removed—then sealed and sterilized in airtight containers. Add water again and you have absolutely pure, safe milk—but more readily digestible than ordinary milk because the large fat globules of the milk have been broken up into small ones of the same size as in Mother's milk. Also, the curds which form in the stomach when Nestlé's Evaporated Milk is used are soft and flaky and therefore easily digestible.

Use Nestlé's Evaporated Milk for Your Baby. Use it in coffee—in cocoa—in tea. Use it in all cooking and as a beverage by diluting with one to two parts water.

NESTLÉ'S
EVAPORATED
(Unsweetened)
MILK

THE NEXT WAR

Out of England and out of English mouths comes the prediction that Europe will again be plunged into war by the year 1935. And this prediction, according to European writers and publicists, seems to be accepted as fact by most Euro-

pean countries. It is most lamentable true that if two nations make faces at each other over a period of five years, they will sooner or later get into war. And France and Italy are today making all the gestures that lead up to the knocking of the chip off each other's shoulders.

The League of Nations can, and probably will, effect a postponement of hostilities. But the League of Nations cannot work miracles.

And the civilized world today must frankly admit that it will require little short of a miracle to permanently prevent war on a continent that has warred almost continuously since the time of the cave man.

Europe has been subjected to three great upheavals:

The coming of Christianity emphasized the fact that it was sinful to shed blood.

The Renaissance emphasized the fact that it was repulsive to shed blood.

The Industrial Revolution emphasized the fact that it was unprofitable to shed blood.

If these three great movements of religion, culture and economics could not keep Euro-

pean countries from each other's throats, what chance has the League of Nations to do it when the League, outside of its Labor Bureau, represents merely the philosophy of international relations?

There exists today a great horror of war in those who actively participated in the Great War.

By 1935 those who were born in armistice year will have attained the age of 17. A generation that knows nothing of the horror of war will have grown to fighting age.

If quarreling statesmen had endeavored to precipitate a war five years ago, they would have had to risk a revolution on the part of those adults upon whom they counted to take the field.

But by 1935 there will be millions upon millions of young men who can be led by the damnable legend of war's romance to go out and fight for everything and anything that skillful propagandists will tell them is necessary for the welfare of their country.

The hope of the world is peace; the dread of the world is war. But in Europe, both hope and dread are waning. And the New World must look out for herself.

REAL PROFITS AHEAD

Although the commercial air transport companies are still, for the most part, operating "in the red," that is no sign that they will not ultimately make a great deal of money.

An article by Bart Reeves in the current issue of World's Work points out that any new form of transportation has to operate at a loss at the beginning.

The railroads in North America, he says, started in 1828, but they were a full quarter of a century old before they were making profits.

Aviation probably will not have to wait that long.

Last year the commercial transport lines of this continent carried 155,000 passengers on regular schedules. Some lines already are making money; and as new economies come into use there is little doubt that the aerial passenger plane will prove a real money-maker.

APPEAL

We think the girls—God bless 'em!—are very foolish when they adopt a new eyebrow, known poetically as "The Maiden in Distress." The brow is so shaped that it adds "an appealing look" to the wearer. Any time a girl wants a new fur coat, or a ring, or a good, durable washboard, or a rubber mat to kneel on while scrubbing the kitchen floor, she is supposed to get out her eyebrow pencil and plaster on, or sketch in, the appeal.

But, after awhile, we stern men will become anaesthetic to this sort of thing, knowing it to be artificial.

It will cease to melt our hearts. When the little woman, all appealed up, comes around to plead for a case of good, hard yellow laundry soap, we shall remain untouched—and when we say untouched, we mean just that.

HEALTH SERVICE OF THE CANADIAN MEDICAL ASSOCIATION — A GOOD START

Thirty-two teeth make the biting and grinding machine which sets the food we take in to our mouths on its way to digestion. A good start is not everything, but a good start is desirable and helpful.

Thirty-two teeth are at least 64 reasons for giving them attention, because lack of attention leads to poor teeth, which in turn, means that the first step in digestion is interfered with and the food does not get off to a good start.

The crown of the tooth is composed of enamel, the hardest substance in the body. Teeth do not wear out from use. Chewing keeps the gums and teeth healthy. Food that is well chewed is thus properly prepared for digestion. The thorough chewing of food is good for digestion and good for the teeth.

If the teeth become decayed, pain results, and chewing is avoided, so food is not prepared properly for digestion. Cavities should be promptly filled as early filling saves the teeth.

We should not wait until the teeth become painful or until we can see or feel a cavity, because this means a considerable amount of damage has already been done. Regular visits to the dentist will mean the discovery of the beginnings of cavities. That is the time to treat them so as to prevent any extreme decay.

To have healthy teeth, attention must be given to the diet. Milk and green vegetables, because of their mineral content, are valuable in providing for the building of good teeth. Chew your food thoroughly and so exercise the jaws and stimulate the gums, the health of which is part and parcel of the health of the mouth.

Brush the teeth regularly upon rising, after each meal and, most important of all, the last thing at night. It is better to brush the teeth after breakfast than before if you are only going to do it once. Never neglect the cleaning before going to bed.

Brush so that the bristles are pulled between the teeth away from the gums. After

YOUR OFFICE SUPPLIES

Good Stationery is the first requirement of course. We specialize in fine papers and good workmanship.

Some Simple Menus for The After-School Meal

BY EDWINA NOLAN
Director of Home Service, General Electric Refrigeration Department

"In the days of our childhood we all have heard the admonition, oft repeated: 'No eating between meals!'"

But times have changed. Today we have carefully supervised diets which include body-building foods for growing, healthy youngsters, who in school and play rapidly use up their energy and bodily substances. And we have new and scientific ideas about meals, foods and their values.

Growing children of school age, who play hard outdoors until dusk, should not go from noon until six or seven o'clock without food. Often, if he does, he overeats or eats too fast at the evening meal or he may be unduly fatigued and be too tired to eat the things his body requires. Hence, the after-school meal.

It doesn't need to be much, as the following suggested week's schedule indicates.

Monday—Milk, sandwich of graham bread and peanut butter, orange.

Tuesday—Milk and rice, fruit juice, oatmeal cookie.

Wednesday—Milk, sandwich of graham bread, raw carrot (ground) and raisins.

Thursday—Fruit juice, sandwich of graham bread with cottage cheese, soft ginger cookie.

Friday—Milk, sandwich of graham bread with finely cut raw cabbage, apple.

Saturday—Milk, sandwich of graham bread and sliced raw tomato, soft ginger cookie.

Sunday—Banana (ripe), oatmeal cookie.

Saturday and Sunday are as important in this schedule as school days if meals are to be regular. These four o'clock bites must be simple, both in the kind of food and in the preparation as the appetite for the evening meal must not be dulled. For that reason, very sweet foods, such as desserts, are best omitted on the after-school menu.

BUILT FOR FARM & TOWN HOMES

the **Renfrew**
COOK-RITE

Here is a combination stove and heater you'll be proud to own — serves two purposes at the same time, it heats and it cooks. It is a combination range in every way. It will burn coal or wood equally well. It is a range small enough to use in a limited space but it is so designed that the table top will accommodate cooking utensils for a large family.

The Renfrew Cook-Rite has been designed to meet every known need for cooking or heating in a large or a little house, for a big or a small family.

THIN THEM OUT

Sowing from 6 to 9 pounds per acre of the best grade mangel seed and thinning the plants out to nine inches apart gives the highest yield per acre according to Field Husbandry experts of the Dominion Department of Agriculture. These deductions were arrived at after a series of studies in planting and thinning carried out over a period of five years.

REAL THRIFT

"Are you going to put in an oil burner for your furnace next winter, as you planned?"
"No, I get so many automobile and other circulars in the mail now that I believe I can heat the house with them."
—Pathfinder.

DO YOU KNOW

The Letz Mill will handle sheaf oats, grind grain, cut straw and mix all to together. Will handle straw, sweet clover, and two kinds of grain. A fine mixed feed maker for milk cows, chickens, hogs and your work horses. Makes feed go twice as far—they eat it all and "look round."

It is also a first class grain grinder.

A good tractor will run it.

We also have hammer mills, straw cutters, bur grinders and ruel crushers.

CANADIAN GARDEN SERV-
ICE, 1930

Bulbs

No garden is complete with-
out some tulips, hyacinths, and
other Spring bulbs which are
easily grown and make a most
brilliant display in the early
Spring. There is a fine selec-
tion from which to choose if
orders are placed immediately.
When one realizes that the
flowers of these bulbs are
practically formed inside the
bulb, the year before they
bloom, the importance of secur-
ing large bulbs will be appar-
ent. There is a remarkable
selection from which to choose,
ranging all the way from the
crucians, which come into flow-
er almost before the snow dis-
appears, to the tall Darwin
tulips which bloom into June.
Bulbs are a good investment as
when once established they will
increase each year, although
unless they are given plenty of
fertilizer and good care the
flowers have a tendency to be-
come smaller. If they are to
be planted in a garden that has
been occupied all Summer by
other plants, a liberal applica-
tion of well-rotted barnyard
manure will be needed, and this
should be spaded in to a depth
of about twelve inches.

Depths of planting depend
on the size and which is very im-
portant that the bulbs should
not be put in too deep nor yet
too shallow. The little crucians
and scillas only require two
inches of cover, but some of
the big Darwin tulips which
have stems eighteen inches
long must be planted about a
foot in light soil and seven or
eight inches in clay in order to
develop a deep enough root
system to support the tall stalk
without staking. A safe rule
to follow with everything but
the Darwins is to cover the bulb
to a depth of about twice its
diameter and they should be
planted about the same dis-
tance apart. It is also impor-
tant to get those bulbs in early,
September plantings getting
more chance to develop and
grow before the freeze-up than
those put in later. However,
if for some reason or other it
is impossible to plant until
October or even November in
some of the warmer parts of
Canada, results will be fairly
satisfactory and one can plant
right up to Christmas in pots,
which are to bloom indoors.
Just before the ground freezes,
it is well to apply a light mulch
of straw manure. This should
remain on the ground over
Winter and until the first
growth appears above the sur-
face in the Spring.

but there will also be fewer
weeds to contend with later on.

It is hardly worth while to put
in Dutch clover at this time as
it is liable to kill out during the
Winter, but the ordinary grass
can be sown safely, and the
clover added early next spring.
Sprinkling a few pounds of
this over the lawn just as the
snow is going away in March
or April is a good practise.
Use plenty of seed, one pound
for every 200 square feet not
being a bit too much. Rake
lightly and then go over with
a roller or pounder. A sprink-
ling of nitrate of soda, a scant
handful to every two square
yards, just when the grass be-
gins to show through the soil
will help develop a nice top for
the Winter, and another ap-
plication of the same fertilizer
should be made when the lawn
begins to green up next Spring.
It is also a good plan to dress
both the new and the old lawns
with barnyard manure or pul-
verized sheep manure late in
the Fall, allowing this to stay
on all Winter. It will supply
food as well as protection, and
the strawy part can be raked
off in the Spring. Bare spots
in the lawn are treated in the
same manner; these should be
raked, sown liberally with seed,
and rolled or pounded down.
Protecting these with a little
brush or poultry wire will pre-
vent the birds from getting
most of the seed.

THE PALE WESTERN CUT-
WORM—A GRAVE WAR-
NING TO FARMERS—BY
H. G. L. STRANGE

The Dominion Entomologists
of Lethbridge and Saskatoon,
Mr. H. L. Seamens and Mr. K.
M. King, have issued a very
grave warning to all farmers
in Alberta and Saskatchewan
regarding the great damage
to crops that may occur next
year because of the cutworm.

The dry May and part of
June that has been experienced
in most parts of Alberta and
Saskatchewan this year has
tended enormously to increase
this insect pest, and it is ex-
pected, unless May and
June of 1931 are much wetter
than is usually the case, that
the greatest and most wide-
spread damage that has ever
been experienced will result
from cutworms.

Most of Saskatchewan south
of Saskatoon, it is expected,
will be badly affected, with the
worst damage within a hundred
mile radius of Regina. In Al-
berta the damage will probably
be very general east of a line
from Edmonton to Macleod and
as far south as the Lethbridge
Medicine Hat line of the Cana-
dian Pacific Railway.

The damage to the 1931 crop
will depend absolutely upon the
way fields are handled this
present August and Sept.

The moth of the cutworm
flies across the fields and lays
its eggs, starting in the first
few days of August, reaching
its maximum flight about the
20th, and continuing to fly and
lay eggs until about the middle
of September.

This moth will avoid all land
that has been even a very slight
crust formed on it by rainfall,
but will lay its eggs upon any
soil where this crust has been
broken, however slightly.

To avoid cutworm damage on
a field, therefore, it is neces-
sary that on summer-fallowed
fields all work should stop by
the first of August or very
few days afterwards. Then a
very slight rain will form a
crust on these fields which will
render them immune the fol-
lowing year from cutworm
damage.

It is most important that no
horses or stock or implements
or wagons shall be allowed to
cross any summerfallow pre-
pared in this fashion, because
wherever the crust is broken
by animals or implements there
the moth will lay its eggs, and
a great deal of damage will be
experienced the following year.

On fields in crop, where har-
vesting operations are conduct-
ed before about September 1,
then damage the following year
is almost certain to be experi-
enced unless these fields are
summerfallowed.

It is apparent, therefore,
that all fields which are crop-
ped this year, as far as possible,
should be summerfallowed in
the year 1931, and that in ad-
dition all work on summer-
fallowed fields this year should
cease as soon after August 1
as possible, and that nothing
should be allowed to walk over
or cross these fields.

Mr. H. L. Seamens, Domi-
nion Entomologist stationed at
the Lethbridge Laboratory,
without hesitation states that
it is far better to allow weeds
to grow on the summerfallow
after August 1 in these affect-
ed areas rather than to disturb
the crust of the soil and so in-
vite cutworm damage.

BEEF EXPORT RESUMES COMPARATIVELY LITTLE

The current Live Stock Mar-
ket Report of the Dominion De-
partment of Agriculture car-
ries an item of more than ordi-
nary interest relating to the re-
sumption of the export cattle
trade with Great Britain after a
lapse of more than a year.

The Manchester Commerce
sured under the provisions of
the Fertilizer Act, adminis-
tered by the Dominion Depart-
ment of Agriculture. However,
yards and were of the type a
comparison of fertilizer con-
sumption on a world-wide basis
known as "light Manchester
feeders," averaging around
1,100 pounds in weight. An-
other shipment of some 200
head is now reported as being
on its way to seaboard from Al-
berta for direct slaughter ship-
ment. "This enterprise on the
part of the producer, trade and
steamship companies should
invite a renewal of confidence
in the market, and indeed is al-
ready having a good moral ef-
fect," observes the report.

WHO WEARS THE
TROUSERS?

The Bachelor: "It's a ques-
tion as to who wears the
trousers in the average house-
hold."

The Father: "It isn't to any-
body who has to pay the cloth-
ing bills for a boy of 10."

Christian Science Monitor.

FOR THE RAINY DAY

Nicklepinch: "If you spend so
much time at golf you won't
have anything laid aside for a
rainy day."

Stymie: "Won't, eh? My
desh is crowded with work that
I've put aside for a rainy day."

—Detroit News.

THE UNUSUAL KIND

Customer: "I want a really
good car—one out of the
ordinary."

Salesman: "What about one
that is paid for in advance?"

—Passing Show.

HE KNEW

Judge: "If, as you admit, you
were three miles away digging
potatoes when this man was
arrested for speeding, how can
you testify that the car was
going at the most only 20
miles an hour?"

Sambo: "Jedge, Ah used to
own that caah!" — Chatham
News.

McCORMICK-DEERING NEWS

"Good equipment makes a good farmer better"

Published by
C. E. TWEED
The Farm Equipment Man

House Phone 41

Office Phone 157

Peg: He takes a good picture.
Peggy: He took five of my good ones.

Did you ever stop to think how much repairing the human race needs? Think of the doctors, dentists, and lawyers—all repair men—trying to repair something that has gone wrong.

The more steam you put behind your work, the louder you can whistle when it's done.

When a minister makes a mistake nobody knows it—when a plumber makes a mistake he charges twice for it—when a doctor makes a mistake he buries it. But, when a farmer makes the mistake of buying "Will Fit" or "Made For" repair parts for a McCormick-Deering machine he won't have to wait long before he finds it out.

"Only a mint can run without advertising."
"What about a subway?"
"That's always in the hole."

Bring the boy along when you come in to look over the new McCormick-Deering Farmall we have on display here at the store. Boys like to feel they are in on things. Probably just like the rest of us on that score.

Hotel settees are sure comfortable, but can't compare with the comfort of a healthy bank roll.

How would you like to be one of the "Horseless Farmers of North America?" Ask us to explain how easily you can join when you have a McCormick-Deering Farmall to help you.

"I suppose you'll see Trojan's column while you're in Rome?"
"Yes, I'll probably read it every morning."

Mrs. Mary Hastie, of Vancouver, is the guest of her daughter, Mrs. R. A. Cement.

Harold Knight, eldest son of Rev. and Mrs. J. F. Knight, Macleod, left on Wednesday morning for Edmonton to resume his studies at the University of Alberta.

Mayor and Mrs. Swinerton of Macleod, were guests at the luncheon given by the City of Lethbridge, at the Air Port last Friday, in honor of the visit of the Air Fleet.

Miss Ida Ferguson, daughter of Rev. and Mrs. Alex Ferguson, St. Andrew's Manse, Macleod, left on Tuesday for Edmonton, to resume her studies at the University of Alberta.

Mr. and Mrs. Jas. Arnott, Cleveland, Ohio, were visitors in Macleod this week, the guests of Mrs. D. E. Ringland who is a sister of Mrs. Arnott. Mr. Arnott's assistant manager of the Sun Life Insurance Company, Cleveland division.

Jack Fanset, son of Dr. and Mrs. O. F. Fanset, returned home on Sunday after spending his summer vacation with a Government Survey Party, leaving again on Wednesday morning for Edmonton, to resume his studies at the University of Alberta.

David Grier, son of Mr. and Mrs. D. J. Grier, Macleod, left on Wednesday morning for the East, where he is entering Toronto University as a first year student. Dave was Honor Student in grade XII at Macleod High School at the recent Departmental Exams.

FOUNDED ON "MUST"

The creed of the men and women in the employ of your electric light and power company is: continuity of electric service.

While we are proud of the equipment in our power houses and the vast amount of machinery for generating and distributing electricity, we take even more pride in the men and women of our personnel. These are the ones who plan, who build and who operate the electrical system that serves you.

Day in and day out, year after year, there is no rest for the power companies. Our customers must have service every minute, there can be no delay when their fingers touch the switch.

MACLEOD LOCAL COUNCIL OF WOMEN HELD REG- ULAR MONTHLY MEET- ING

The Macleod Local Council of Women, met this week in the Parish Hall for their regular monthly meeting, there being a good attendance of members present. Mrs. J. F. Knight occupied the chair.

The whole time of the meeting was taken up with a discussion of the various resolutions to be brought before the annual meeting of the National Council of Women, this meeting takes place in October at Niagara Falls, Ontario.

There are a large number of very important resolutions coming before this annual meeting, and it was essential that these resolutions should be fully understood and discussed, so that the delegate would know the feelings of the members regarding same and get her instructions accordingly. Mrs. O. C. Edwards, Macleod, who is the Vice President of the National Council, will represent Macleod Local as their delegate.

STAND OFF WOMEN'S IN- STITUTE MEETING

The Stand Off Women's Institute held their monthly meeting at the home of Mrs. C. Johnson, Ardenville, when, despite the wet afternoon, there was a good attendance of members present.

Plans were made for co-operating with the Macleod Institute in connection with the Constituency Convention to be held at Macleod on September 30th, Mrs. W. J. Murphy being appointed the delegate to represent Stand Off Local at the convention.

Mrs. Jack McNeil was convener of the programme, which consisted of a number of interesting items. Mrs. T. J. Bailey gave an amusing reading, entitled "The Tired Farmer." Mrs. W. J. Murphy, Mrs. Coffell and Mrs. C. Barr gave a splendid review of Current Events both at home and abroad, which showed that these ladies are keeping a watchful eye on world affairs. Mrs. J. Driver gave a conundrum which caused considerable amusement. Mrs. M. Whipple gave "The Speech from the Throne" at the recent opening of Parliament, commenting on same. Mrs. McNeil gave a very instructive paper on "Legislation" which was much appreciated. She also read an article on the life of the Hon. Irene Parley, M.L.A.

Refreshments by the hostesses, Mrs. Johnson, Mrs. Bailey, Mrs. Coffell, Mrs. Driver and Mrs. Skelding closed a most enjoyable meeting.

MACLEOD RESIDENT HON- ORED ON BIRTHDAY

A most delightful afternoon was spent on Tuesday, Sept. 16, at the home of Mr. and Mrs. John Forster, 21st Street, Macleod, the occasion being Mr. Forster's 80th birthday. About 25 of his friends gathered to wish him many happy returns of the day, the whole affair was a complete surprise to the old gentleman. A delicious tea was served the feature of which was a lovely birthday cake, which the guest of honor cut and distributed to his friends.

The Rev. F. Randall Powell, rector of Christ church, in his usual happy strain, gave the birthday toast, congratulating Mr. Forster on having attained his four-score years, and evidently enjoying the best of health, emphasizing the fact, that a life well spent had its reward and recompense in a happy old age. Mr. Forster

suitably responded to the toast, thanking all his friends for the delightful surprise they had given him and for the many gifts which they had presented to him.

Mr. Forster was born at Hexham, England, where he lived until he came to Canada and Macleod over 20 years ago. For a number of years he was engaged in farming, south of Macleod along with his sons, but he has been retired and living in Macleod, for the past 10 or 12 years. Mr. and Mrs. Forster are very highly respected in Macleod, and during their residence have made many friends, whose best wishes are extended to Mr. Forster on this auspicious occasion.

A very old friend in the person of Mrs. Ben Rands, formerly of Macleod, who was present, having just arrived in Macleod on a visit, this week from England where she is now residing. Mr. William Rand also from England who is visiting America, was also present, they are old friends of the Forster family.

A very enjoyable afternoon was closed by all joining hands and singing Mr. and Mrs. Forster and singing "For they are jolly good fellows."

WORK COMMENCED ON THE NEW PALACE CAFE BUILDING

Commencement has been made this week on the basement for the new Palace Cafe on Main Street Macleod. A few months ago the proprietors of the Palace Cafe, bought the two story brick building, which has been occupied for many years by G. H. Scougall, Real Estate and Insurance Agent, and which was one of the first brick buildings to be built in Macleod, over 30 years ago. It was built by Cowdry Brothers, Bankers, and was used by them for many years as Bank offices, until they were bought out by the Canadian Bank of Commerce.

The old building is 24x30 ft., and the extension is 50 feet making the completed Cafe 24x80 feet. The basement will be 20x50 feet and a very fine new front will be put in the building, which will be another added improvement to the Main Street of the town. The building will be full two story, the upstairs being for rooms and offices. C. W. Stevens, contractor, has secured the contract for the job.

Football Player: "Why?"

Little Brother: "Then maybe Mother would let me play in the mud, too." — Christian Science Monitor.

WORLD WIDE FIRM CHANGE NAME!

Announcement has just been made of a change of name by the Nestle's Food Company of Canada, Limited. This world famous company will be known in future as Nestle's Milk Products (Canada) Limited.

The wide interests of this company and the varied nature of their products have been taken into consideration in this change of name. It was felt by those in authority that the new name of Nestle's Milk Products (Canada) Limited conveyed more to the general public than the old. When its various products such as Nestle's Condensed Milk, Evaporated Milk, Cheese, Baby Food, Chocolate and Lactogen are considered, the advisability of this change of name is apparent.

Despite depression affect-

ing many lines of business and industry, the Nestle's Company are enjoying sound progress. With their products selling in every country on earth and with their reputation for quality firmly established everywhere, this Canadian company have consolidated and progressed until their 1930 showing is comparable in volume to other record years.

The company is careful to state that the change is one of name only and that policy, direction and production methods will remain as formerly.

THE MISTAKE

"Why is Mabel so wrought up?" The papers gave a full account of her wedding. "Yes; they put 'Miss Blackfield was married to the well-known collector of antiques.'" — Nebelspalter (Zurich).
